
 **An employee
benefits package
trusted by 10 000
employers.**

We don't know if one of your employees is ready to resign. We don't know if they've had an interview already, or signed that letter of intent. But we do know, replacing an employee can cost your company up to 9 times their salary.

Which is why we give you comprehensive benefits, to help you engage and retain staff. Benefits like Trauma Counselling, Retirement, and Life Cover. Benefits that will make your employees stay, and benefit your bottom line. It's why more employers trust us with their employee benefits than any other.

To give your bottom line the **Liberty Corporate** Advantage, speak to your Financial Adviser, visit liberty.co.za, or call us on 011 408 2999.
