### Your Effective Annual Cost Is Zero

The Effective Annual Cost (EAC) is a measure that has been introduced to allow you to compare the charges you incur and their impact on investment returns when you invest in different Financial Products.

It is expressed as an annualised percentage. The EAC is made up of four components, which are added together, as shown in the table below. The effect of some of the charges may vary, depending on your investment period. The EAC calculation assumes that you end your investment at the end of the relevant periods shown in the table.

Impact of charges	1 Year	3 Years	5 Years	10 Years
Investment Management	0,0%	0,0%	0,0%	0,0%
